SKINNIE

PREMIUM SKINCARE

Mirjam Bialik

Founder, Product Developer, and
Entrepreneur

Finding a product that meets the individual need of one's skin can be a challenging task. No product on the market was able to convince me completely. I decided to take action myself and put my passion, knowledge, and experience into practice for healthy, youthful, and radiant skin. That was the birth of SKINNIE Cosmetics GmbH. After years of intensive research and product development, a new and exciting chapter began for me – the launch of my own skincare line. Motivated by the desire for youthful skin and a radiant, timeless appearance, I developed skincare products that are effective, highly concentrated, and free from irritating ingredients.

Our product formulations of the individual products are developed and produced by a team of highly qualified experts in both Switzerland and Germany. With the use of innovative deep technology and unique active ingredient complexes, my products offer the highest quality and effectiveness. The advanced high-tech active ingredients boost regeneration and support cell renewal, leading to beneficial changes in cell DNA. These formulations are the result of successful, well-founded research and development for a transformative rejuvenation effect. With SKINNIE, you will experience a new dimension of skincare, based on scientific findings and meeting the highest standards.
